AROUND AND ABOUT

--Several new people have joined the College staff during the past week. Welcome to Diane Hough and Claudia Harris, who are at MSSD; Janet Phillips, in Continuing Education; Willis Clary with the Physical Plant and Patricia Ann Jackson in Public Services.

--The Public Service Programs has recently published a brochure entitled "A Look at American Sign Language." The first in a series

of booklets which deal with communication with deaf people, this publication is an excellent resource for lay persons who wish to learn about manual forms of communication. --The College has recently received gifts from the Chevy Chase Women's Club and the Nez Perce Tribal Executive Committee in Idaho for scholarship assistance.

GETTING TO KNOW THE DEPARTMENT OF COUNSELING

The Department of Counseling was established for the purpose of training school guidance counselors to work with deaf children. Its program is unique as it is the only one in the nation which specifically trains counselors to work with deaf children and their parents in an educational setting.

It is also serving as an "in-service training program" for many staff and faculty members from MSSD, Kendall and the College as well as for many vocational rehabilitation counselors working for the state of Maryland.

The Counselor Training Program emphasizes practicum experience in schools, vocational rehabilitation offices and specialized training centers. During the spring of 1974 there were 15 trainees doing their internships. The department offers a two year graduate school program leading to a M.A. degree.

Faculty and staff can assist the department in several ways. Each deaf person on campus is a valuable resource in aiding graduate students learn about deafness and deaf people. Deaf people on campus can help the graduate students develop their receptive skills by conversing in sign language. In addition, it would be helpful if the students could be invited to social activities in the deaf community, taken home to a meal and conversation and any other type of function which will expose the trainees to the many facets of life within the deaf community.

The Department is staffed by three full-time instructors and several part-time teachers and it is located in the Counseling Center.

ON THE GREEN needs your input. We are particularly interested in hearing about your department -- what you are doing and how the College community can assist you. Help all of us get to know one another better.
